

Greetings from Free Software Foundation Tamilnadu,

Free Software Foundation Tamil Nadu is a technical community where we create awareness on Free Software among Students, Workers, and General Public..

As part of our activity we have planned to celebrate Software Freedom Day on 27th September 2015.

Software Freedom Day is a worldwide celebration of Free and Open Source Software (FOSS). Our goal in this celebration is to educate the public about the benefits of using high quality FOSS in education, in government, at home, and in business -- in short, everywhere! The volunteer teams around the world organize the local SFD events to impact their own communities.

On Software Freedom Day we scheduled to 30 Stalls which is based on Free Softwares, Knowledge Freedom, Internet Security, Open Hardware, etc..In this celebration the main audience were General Public, Workers, IT Professionals, Government Employees and Students.

FSFTN is looking for a sponsorship to celebrate this SFD. We look forward for Startups, Tech communities, etc for this need. The sponsors would be for providing snacks and other valuable resources. It would be great if we could get a sponsor and make it on the day of SFD. We will also act as a source of marketing for the company accompanying us, by their names on the banner..
