a) Guest lecture series

FSFTN resource persons conduct 1 or 2 guest lectures on introduction to free software and key concepts, possibilities of contributing to free software, job prospects and the how to join and benefit from the start-up boom.

b) Workshop

FSFTN organises both 2 and 3-day workshops. On varied topics like

Installation & Intro
File system Architecture and Shell Scripting
Ruby
Rails
Python
Django
Meteor
GNU/Octave
NoSQL Database
Distro creation
Open hardware
Designing and Image editing(Gimp, Inkscape)
Blender
Localization
Node.js
Cloud computing
Open Stack
CMS (Drupal, Wordpress)
Cryptography
Networking Basics

We normally prefer a 2 or 3 day-workshops , though it may also be scaled to 5 days depending upon the support from the institution and the number of participants.

Though we maintain the fees structure as 500/2 day session Tand 600/3 day session its negotiable based on the needs.
